

**Q**uestion:

Does the Colleges' contract meet the recommendations of the Workload Taskforce?

**A**nswer:

**No.**

The Task Force's very specific recommendations (above) were largely ignored by college management in their offer.

MWAs that would measure only hours spent in-class, and teaching contact days over the length of the agreement, which can be from one semester to three years in duration, for the purpose of averaging over the length of the MWA.

See the next question in the MWA FAQs for what is NOT included when calculating Total Workload for MWAs.
